

Welcome to
Stephen Hawking
Class
Year 5

at Repton Manor
Primary School

Stephen Hawking Teaching Team

Name: Mr. Hathaway-Batt (or Mr. H-B for short)
Age: Far too old
Height: Tall

Likes: Reading (particularly science fiction and fantasy novels), cooking (experimenting with new recipes is one of my favourite things to do) and rugby (sadly my playing days are behind me, but I still love to watch it and support my local team).

Dislikes: Odd socks (they come in pairs for a reason!), crisps packets being opened the wrong way up (you're eating upside down!) and not being able to play rugby anymore due to injuries and age (see above).

Fun facts: I can wiggle my ears, make the noise of a dripping tap and I was once invited to Buckingham Palace by the Queen!

Mrs Dearlove

Hi, I am Mrs Dearlove and I am very excited to be working in Year 5 this year.

My favourite subjects to teach are Art, French, Maths and helping you improve your hand-writing. Being arty, I love all colours and don't have a favourite; there is a place for all of them!

When I am not in school, you will find me out running, walking or cycling along the seawall near where I live or, if the weather isn't good, baking or crafting indoors. Jigsaw puzzles are also a passion of mine on rainy days.

I love to travel and have a daughter living in America, so that is where I like to go most when I get the chance. I like to try all the different foods on my travels and generally eat very healthily, however I do also have a soft spot for plain chocolate.

We are currently looking for another really special adult to come and join you on your adventures in year 5!

This is a photo of our school.

This is how I will get to my Classroom in the morning.

This is my new classroom. My classroom might look different next year as my teacher might move some furniture

This is where my locker is. I will put my coat, bag and PE bag in my locker

If I have a packed lunch, I will put it on the trolley outside my Classroom.
