Welcome to Term 6 - The end of your primary school career!

Mathematics

This term, we will be finishing off the children's coverage of the primary curriculum in areas such as ratio, time and statistics. Following this, we will be revisiting areas that we have identified children would benefit from covering in preparation for secondary school. In addition, we will be looking to stretch and challenge children's mastery of the Primary Curriculum.

Topic

Due to the popularity and the quality of learning of our topic, Our Perfect Planet, we will be continuing to explore this next term alongside our production and transition work. In addition, the children's Genius Hour projects are linked to our Topic. Please speak to your child about their project, we are blown away by their creativity and passion and cannot wait to see what they produce!

Production

This term the children will be working hard on their production of The Jungle Book. Please see dates for the production in the Dates for the Diary section below. All of the children's scripts, song lyrics and tracks along with costume ideas are uploaded on Google Classroom for you to access. If you are unable to access Google Classroom, please let a member of the Year 6 team know and we can support you.

English

Linking to our Topic, we will be exploring how to write a persuasive argument regarding climate change using features such as rhetorical questions and others tools to construct a convincing argument. We will be deconstructing persuasive and motivating speeches throughout history ranging from Winston Churchill to Greta Thunberg as inspiration.

Transition – Secondary Ready

A large portion of Term 6 will be dedicated to preparing the children for their transition to secondary school. Keep your eyes peeled for a letter that you will receive at the beginning of the term that will further detail how we intend to support your children as part of their transition. Find below the transition dates for local secondary schools:
